EDUCATION

2025
- **Trident academy of technology**
  Master in computer application(MCA)

2023
- **Lokanath digree college**
  Graduation
  8.37

2019
- **The guide residential college**
  Higher secondary
  7.2

2017
- **Akhua odanga high school**
  Board
  8.8

SKILLS

- Python and it's libraries Intermediate
- Ai/ML Beginner
- Java Intermediate
- Frontend (HTML5,CSS3, JAVASCRIPT) Intermediate
- API
- Git/Github
- C and c++ Intermediate

PROJECTS

- **Smart waste management system**
  Developed a Smart Waste Management System integrating AI and ML algorithms as part of an academic project. Utilized frontend technologies including HTML, CSS, and JavaScript to create an intuitive user interface. Employed sensor technology for real-time tracking of dustbins, while leveraging AI and ML algorithms to measure distances and optimize collection routes using the shortest path algorithm. This project not only demonstrated proficiency in web development but also showcased the application of advanced technologies for efficient and cost-effective waste management

EXPERIENCE

-
- As a fresher I am eager to leverage my academic background and passion for technology to contribute to dynamic projects and initiatives. With a strong foundation in python and it's libraries , java , hands-on experience in practical projects, and active involvement in extracurricular activities, I am equipped with the skills and enthusiasm to make valuable contributions to any team or organization."

OBJECTIVE

I aim to launch my career in software development. Eager to contribute my skills to innovative projects and learn in a dynamic environment, I seek opportunities to make meaningful contributions to a forward-thinking organization
